## What's New

### FY2010 Annual Report Available

[Jonelle Doughty](#), ANHC Public Information Specialist

The ANHC FY2010 Annual Report is now available for download. Get the complete report or download only the information that interests you. The Executive Summary contains detailed information on ANHC's activities for FY2010. The System of Natural Areas document reports the status and condition of each individual natural area, and the Registry of Natural Areas lists (by county) the rare species and natural communities tracked by ANHC. [Follow this link](#) for download instructions.

### Cave Springs 4-H Clean-up

Lauren Dexter, Cave Springs 4-H Club Reporter

In September, members of the Cave Springs 4-H Club included Cave Springs Cave Natural Area in a community service clean-up project to prepare the town for the Cave Springs Centennial celebration. Earlier this year, the club contacted Doug Fletcher, ANHC's chief of stewardship, for volunteer opportunities at the natural area. Club members picked up trash along the roadway and removed mildew from the natural area entrance sign, which is located at the base of a walking a trail behind the post office in Cave Springs.

Pat Dexter, co-leader for the Club said, "Some of our members have environmental stewardship as their main 4-H project. These are great activities for them and our Club welcomes

opportunities to help preserve the natural beauty around Cave Springs.” [Click here for images from the clean-up and more information on the Cave Springs 4-H Club.](#)

11/9/2010

### Red Apple Inn, Heber Springs, AR

The Arkansas Natural Heritage Commission will hold its final meeting of 2010 at 3:00pm in the conference facility of the Red Apple Inn in Heber Springs, AR.

## 2010 AWAG Conference

11/18/2010

### Ozark Folk Center, Mountain View, AR

Registration is now open! "Arkansas Watersheds - The Future is in Your Hands" offers workshops, presentations, a watershed tour, panel discussion and a poster session for its participants. Over a three day period environmental experts, watershed group leaders, science education instructors, and natural resource specialists will provide information to equip citizens with the skills to become leaders in guiding their community toward making informed decisions about their water resources. Chad Pregracke, founder of "Living Lands and Waters," will be the keynote speaker. Get more information [here](#).
